

Australian Turntable Company

# Revolving Restaurants & Rooms

## The Australian Turntable Company is the industry leader for the provision of rotating rooms and revolving restaurants.

Innovation drives the core essence of our organisation. Utilising the latest in 3D modelling, CAD and robotic manufacturing technology, we can provide rotating room solutions for your residence or business.

By incorporating rotating floors in buildings, residences and businesses can optimise space as well as provide a diversity of views.

Our consultants can work with builders, developers and architects to develop the right rotating solution for your building with our innovative technology.

With successful projects in Dubai, Qatar and the world's largest revolving restaurant in Tehran, we have an international reputation for delivering excellent rotating building solutions.

For further information contact the Australian Turntable Company and find out how we can provide a cost effective solution for your project needs.
